Course code	TCS_CC3							
Type and description	TCS core curriculum							
ECTS credit	1							
Course name	Advanced data processing algorithms and structures							
Course name in Polish	Zaawansowane algorytmy i struktury przetwarzania danych							
Language of instruction	English							
Course level	8 PRK							
Course coordinator	Piotr Lipiński							
Course instructors	Piotr Lipiński							
Delivery methods and course duration		Lecture	Tutorials	Labora- tory	Project	Seminar	Other	Total of teaching hours during se- mester
	Contact hours E-learning Assess- ment crite-	No	No	No	15 No 100%	No	No	15
	ria (weight- age)							
Course objective	Understanding and ability to use data processing algorithms and structures							
Learning outcomes	Knowledge and ability to use data processing algorithms and structures							
Assessment methods	Evaluation of project							
Prerequisites								
Course content with delivery methods								
Basic reference materials								
Other reference materials								

Average student workload outside classroom	35 h
