| <b>Course objective</b>                     | <p>1.Acquiring knowledge about basic and advanced architectural theories;</p> <p>2. Acquiring knowledge about history of contemporary architecture.</p>   |           |            |           |            |         |   |       |   |               |   |   |   |    |   |   |    |            |    |    |    |    |    |    |  |                                 |      |      |      |      |      |      |  |
| <b>Learning outcomes</b>                    | <p>Having completed the course student has:</p> <ol style="list-style-type: none"> <li>1. Adequate knowledge on how to apply scientific research methodology appropriate for the area of theory and history of architecture: effects W4;</li> <li>2. Ability to choose the right methodology for conducting, implementing and evaluating research for a theoretical issue: effects W4, U4;</li> <li>3. Ability to plan research and to analyze the obtained results: effects U4;</li> <li>4. The ability to creatively identify and synthesize architectural problems: effects U4;</li> <li>5. Ability to formulate problems related to architecture: effects K1;</li> <li>6. Willingness to critically evaluate and analyze architectural theory: effects K1.</li> </ol> |           |            |           |            |         |   |       |   |               |   |   |   |    |   |   |    |            |    |    |    |    |    |    |  |                                 |      |      |      |      |      |      |  |
| <b>Assessment methods</b>                   | <p>W4, U4 – seminar presentation</p> <p>K1 – discussion</p> <p>The final grade:</p> <p>Seminar presentation - 50%</p> <p>Active participation in discussion – 50%</p>   |           |            |           |            |         |   |       |   |               |   |   |   |    |   |   |    |            |    |    |    |    |    |    |  |                                 |      |      |      |      |      |      |  |
| <b>Prerequisites</b>                        | Basic architectural knowledge   |           |            |           |            |         |   |       |   |               |   |   |   |    |   |   |    |            |    |    |    |    |    |    |  |                                 |      |      |      |      |      |      |  |
| <b>Course content with delivery methods</b> | 1. Classification of the main trends in contemporary architecture;  |           |            |           |            |         |   |       |   |               |   |   |   |    |   |   |    |            |    |    |    |    |    |    |  |                                 |      |      |      |      |      |      |  |

|   |  |
|---|--|
|   | <p>2. The main problems of architectural theory;</p> <p>3. The relationship between the architecture, technology, art, culture, philosophy, sociology, ecology, economy, and politics.</p>   |
