Scope Fluidics Fellowship

About the Program

The Scope Fluidics Fellowship is our new 12-week program designed for PhD candidates and postdocs who want to develop their innovative MedTech and BioTech solutions.

We combine science and entrepreneurship – offering an attractive scholarship, funding for market research, and support from experienced experts. With our help, you will develop a business concept that addresses real market needs. The best projects will have the opportunity to receive further funding (up to PLN 1 million) for project development within Scope Fluidics as part of the Proof of Concept phase.

Are you completing your PhD or postdoc in biotechnology, chemistry, physics, or medical sciences? Don't wait – apply now and bring your vision to life with us!

Who We Are Looking For?

- ✖ PhD candidates and postdocs in the final stages of their research
- ✖ Innovation enthusiasts
- ✖ Creative thinkers with an entrepreneurial mindset

How to apply?

- ✖ Fill out the application form using the QR code
- ✖ Application deadline: May 16, 2025
